### **"Complaint: Mass Death caused by German Dentists using Dental Amalgam"**

In spite of more than 20,000 strong scientific warnings from all over the world, dentists continue to fill pure, highly toxic, liquid mercury blended with various other powders of highly toxic metals into the teeth of trusting and uninformed patients on cost of insurance companies.

At mouth temperature, the gaseous mercury vaporizes directly into the brain where it remains stored until premature death. Mercury in the brain is the cause for neurological, immune and genetic diseases.

Since mercury passes through the mother by way of placenta to the fetus, literally every German suffers from an amalgam disease which causes premature death to every other German. Each year nearly half a million of Germans die cruelly because of the consequences of dental amalgam.

This connectedness was clearly demonstrated in animal testing on behalf of the German Federal Government back in 1995.

This Holocaust-style reminding murdering has simply continued ever since; on the quiet and obviously on purpose.

Therefore our demand:

1. The immediate arrest of the perpetrators.
2. Conviction of the perpetrators.
3. Ensuring the murder weapon (liquid mercury).

Offenders: Melchart, Vogt, Köhler, Streng, Weidenhammer, Kremers, Hickel, Felgenhauer, Zilker, Wühr, Halbach. All reside in the Federal Republic of Germany.

Statement of accusation:

1. The German amalgam perpetrators spread this terror all around the globe; most most recently to China and India. The annual death figures go solely on

the account of amalgam and have reached millions. **This is Genocide!**

2. The accused individuals have acted solely for eigennützig reasons.
3. Same-in-price alternatives without mortal danger have been available for decades.
4. Scientific arguments have been completely ignored.
5. German socialized medicine in general simply belittles deadly amalgam diseases as either "mental illnesses" or as "civilization diseases"; autoimmune diseases are diagnosed as irreversible.
6. We know of more than 400 deadly autoimmune diseases caused by amalgam; among them: Alzheimer's, diabetes, various forms of cancer, infarcts, Multiple Sclerosis.
7. An army of royally-paid experts assists the perpetrators as co-perpetrators.
8. The German Federal Supreme Court as well as the European Court have remained inactive in regards to our complaints.  
We urge the International Criminal Court in Den Haag for acceptance our complaint.
