„Application: widespread deaths through dentists using amalgam“

In spite of more than 20,000 vigorous, science-based warnings from all over the world dentists still plug teeth with highly toxic, solvent mercury plus the dust of other highly toxic metals as patching material. It first hardens by inhaling the vapourizing mercury into the brains, where it stays until early death, causing damage to the nervous and immune system and the genetic makeup.

Every German suffers from it, often already caused by his Mother`s amalgam,
As a result, every second person dies an agonizing death earlier, concisely half a million Germans every year. The causal connection was clearly attested through animal experiment by order of the German Government. (1) Since then the premeditated murdering, reminiscent of the Holocaust, has secretly but unimpededly proceeded.

We therefore demand:

- 1. The immediate arrest of the offenders**
- 2. Their condemnation sentence**
- 3. Securing of their weapons (solvent mercury)**

Offenders: Melchart, Vogt, Köhler, Streng, Weidenhammer, Kremers, Hickel, Felgenhauer, Zilker, Wühr und Halbach, all from Germany

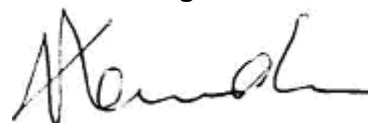

Reasoning:

1. The German Amalgam offenders are spreading the murdering of people all over the world, at last to China and India. The annual death figures, only caused by Amalgam, run into millions. This is Holocaust! (2).
2. The offenders solely acted out of self-interest.
3. There have been alternatives comparable in price but without mortal danger for some decades.
4. Scientific objections were brutally disregarded.
5. The mortal amalgam disease was ridiculed mentally disordered oder as disease of civilisation respectively declared non-reversible autoimmune disease.
6. The autoimmune diseases caused by Amalgam include more than 400 deadly diseases, such as the Alzheimer`s disease, diabetes, some kinds of cancer, infarcts, multiple sclerosis.
7. A troop of amply rewarded reviewers helped the offenders, acting as accessories (3).
8. The German Federal Court and the European Court have stayed idle in spite of our complaints/application, we herewith urgently call for their acceptance.
